Hues of Colours

“The greatness of a culture can be found in its festivals.”
-Siddharth Katragadda

The most vibrant and colourful festival, Holi, is celebrated with much fervour, zeal and zest. It truly represents the blending of beliefs, diversities and culture. Holi is indeed a time to celebrate with our loved ones, a festival filled with affection, love and respect. The students of class III organized a special assembly on Holi on March 26, 2021. The assembly started with a beautifully executed National Anthem. The morning prayer by our Principal ma’am, Ms. Bhawna Khanna, inspired all our students, while a heart-warming message from our Director ma’am, Ms. Indira Kohli, kept the morale and positivity of our students high. Children dressed up in colourful clothes spoke about the festival and informed the audience about different stories and facts related to it. The assembly ended with a foot tapping dance which created an aura of festivity and joy. It is truly believed that we communicate our feelings and emotions through colours and colours fill our world with beauty and joy, and it also helps ignite the light of happiness, gratitude and wisdom within us.

The Fun Express

“Creativity is thinking up new things, Innovation is doing new things.”
– Theodore Levitt

It is rightly said, ‘the right mix of creativity along with curriculum helps students to be innovative and also encourage them to learn new things’. Art is the process of creating, exploring, discovering, and experimenting. Work Education forms an integral and indispensable part of a schools’ curriculum. It provides the basis for building up different skills in a child. The WE theme for the month of April- May was ‘Art Unlimited’. Students of classes I and II enjoyed learning about different concepts and art forms like Fork Painting, Finger Painting etc. wherein they made a beautiful peacock and enhanced their knowledge about the national bird, made a greeting card for their family members and decorated a photo frame. On the other hand, students of class III enjoyed many integrated activities like Ice cream stick cat craft, Fraction bird, Snake puppet craft, etc. All the activities were conducted in the most interesting manner as students were shown related videos, powerpoint presentations and stories. Children happily shared their learning experiences and enthusiastically participated in the WE classes.

The Learning Expedition

“Knowledge of languages is the doorway to wisdom.”
- Roger Bacon

English is a language which celebrates cultural diversity within India and unites countries across the world. This global language helps our young ones to broaden their minds, embrace other cultures, thereby, developing emotional skills. We at primary wing of DPS, GBN celebrated ‘English Language Day’ with the students of classes I-III on April 23, 2021. The enriching ambience encouraged our children to study, analyse and enjoy this language, eventually embracing it as their very own, while exhibiting ingenuity and creativity in all the activities. Students enjoyed listening to different fun facts on the language, and decoding different riddles with their classmates. Fun and laughter reigned our online class as each one of them made a beautiful poster depicting their love for the language. It was indeed an enriching experience for our students who participated with jollity and fervour. Children proudly shared their pictures holding the posters with their teachers and enthusiastically participated in the celebrations!

The Green Helpers

“The Earth is what we all we have in common.”
-Wendell Berry

Earth Day is celebrated on April 22 with great gusto and zeal. Dispitees have always celebrated Earth Day in the most unique and remarkable ways. We believe that each one of us can make a difference and if we all come together we can definitely make a change. Time and again, we have encouraged our children to keep our environment safe, plant more trees, keep our surroundings clean and green. Keeping this spirit in mind, the students of classes I – III celebrated Earth Day on April 22 and April 23, 2021. The day commenced with a powerpoint presentation on how we can preserve our Mother Earth. It was amazing to see how the children made their ‘Earth Necklace’ with dough and colours and proudly wore it during the day. On the second day, it was wonderful to see the children dressed up in earthy colours for the assembly. They also enjoyed a healthy breakfast with their teachers, discussing about how they can save the environment. Plants are essential for all the living things and for the survival of our planet Earth. Children also shared selfies with their favourite plant with their teachers. Children enjoyed all the activities and gained knowledge on how they can protect our Mother Earth.

Virtual Orientation Day

"A good education is a foundation for a better future."
-Elizabeth Warren

DPS, GBN has always believed in making its students responsible human beings who are perseverant, confident and compassionate. A safe and welcoming environment is essential for a students' success. Indeed, Schools and educators play an important role in creating an environment that enables all the students to succeed in life. The School organized a 'Virtual Orientation Day' on April 24, 2021 for its new students. The event began with a warm welcome by our hosts, the Vice Head Girl and Vice Head Boy. The beautifully executed National Anthem and a mesmerising performance by our School Choir created an aura of positivity and elation amongst the audience. Our respected Principal ma'am, Ms. Bhawna Khanna welcomed and addressed the gathering and spoke about the importance of the holistic development of a child and the key components essential in making a child successful and ready for a splendid future. Our school presentation in a form of a video provided a powerful insight to the parents on the school's vision, curriculum, teaching methodologies, and briefed them of the various departments. An enthralling performance by our School Band and a cultural dance performed by our very own students left the audience with admiration and delight. The event ended with the introduction of the Coordinators and Class Representatives to the parents and a warm interaction with the class teacher.
