Sector-132, NOIDA

## Work Education- Tech Tycoons

**"We are changing the world with technology." -Bill Gates**

Work Education provides children with opportunities to go an extra mile. February month came up with one of the most exciting themes, 'Tech Tycoons', wherein different interesting activities were planned for the children. In the first activity, the children learnt about the importance of technology and meaning of Tech Tycoons. They were explained through videos and power-point presentations that how the renowned Tech Tycoons like Ratan Tata, Elon Musk, Mark Zuckerberg etc. have changed the world of technology through their creations. Our little Dipsites were highly motivated after the session and designed their own car on paper and branded it through creativity and imagination. In the next activity, our tech masters had a great learning experience about the inventions of different gadgets around us like telephone, washing machine, computer, aeroplane, calculator etc. In yet another activity, the young scholars were briefed about the logos of different brands and the significant meanings behind them. Children had a lot of fun during the whole month as it was an amalgamation of exciting and innovative activities along learning and fun.

## Spectrum- The Culture Fest

Spectrum- The Culture Fest of DPS, GBN was one of its kind. It was an event depicting a wonderful collaboration of different states, their culture, food and much more. Children showcased their talent by participating enthusiastically and making the event much more vibrant with their performances in cartoon parade and tableaus of different states. The little dancers, cheerleaders and singers of the choir group looked excellent in their beautiful costumes and gave some remarkable performances. The plethora of activities and performances created an aura of excitement and joy all around. It was a day full of excitement as different food stalls, games stalls, and kids' play area added to the fun. Kudos to our children and the mentors for their dedication and tremendous hard work in making this event a huge success!

## Orientation Day Ceremony

As DPS, GBN welcomed the parents to the Orientation Ceremony 2023-24 on Thursday, March 16, 2023, this exclusively curated event, strengthened the partnership of a shared vision and mission of enhancing student learning experiences. The school's principal, Ms. Supriti Chauhan familiarized the parents with the functioning of the school and encouraged them to become educators in collaboration with the teachers, for the holistic development of the students. A Virtual School Tour showcased the vibrant and engaging teaching-learning environment and apprised them of the school's culture, ethos and spirit. As the School Band - Crescendo strung into the hearts of the audience with their cosmic tunes, the graceful and elegant Bihu dance charmed one and all, while the soulful rendition of the School Choir mesmerized the parents. The essence of the Orientation Ceremony warmed the hearts of the new Parents as they joyfully looked forward to a lifetime of association with DPS, GBN.

## Session End Activities and Class Party

***"Take pride in how far you've come. Have faith in how far you can go. But don't forget to enjoy the journey." – Michael Josephson.***

Fun learning never ends, even if the session is ending. We, as Dipsites believe to have unstoppable fun along with learning throughout the year. Students of Grades I and II enjoyed a plethora of activities which kept them captivated and helped them develop many skills like speaking, writing, art, and a lot more. Children of Grade I made shapes scenery, enjoyed quizzes, played bingo games, did show and tell activities, etc. and Grade II children too did intriguing activities like rolling the dice, leaf art and making toy telephones. This engaging learning month ended by the most wonderful and fun class party. The little ones celebrated the culmination of a wonderful academic session with their friends and teachers. They all relished the party food and danced to the party music. We wish our children good luck for their future endeavours!

## Achievers' Gallery

***"Winner don't wait for chances, they take them."- Anonymous***

The Olympiads being a dynamic source of knowledge helped our young scholar Ivaan Bansal of Grade I D to prove his mettle in the following categories-

- International Rank 15<sup>th</sup> and a medal of Distinction in SOF National Science Olympiad
- International Rank 3<sup>rd</sup> and a Bronze Medal in SOF International Math Olympiad.

Congratulations to our little Dipsite and we wish him the best for his future endeavours.
